Washington Henrique Fernandes de Sousa

Front-end developer

24 years old, Brazilian, single. Primary email: henriquesousa.dev@gmail.com
Secondary email: dehenriquesousa@gmail.com. Tel: (12) 9 91668819
São Paulo - Brazil

My name is Washington Henrique, but you can just call me Henrique. Nice to meet you! I have been working as a programmer for over 3 years developing applications with JavaScript, React JS, Typescript and other technologies, occasionally as a UI Designer. Graduated in Systems Analysis and Development from Fatec São José dos Campos, São Paulo. Currently doing a postgraduate degree in Full-stack at Rocketseat in partnership with Faculdade Sirius.

Experience:

Front-end developer and UI Designer, at: Intrabank:
July/2023 - Present.
Description: Credit Rights Investment Fund (FIDC) / Asset Management where I work as a Front-end developer of internal systems and solutions in the Commercial, Compliance and Credit sectors. Occasionally developing screen design prototypes (UI).
Technologies: React JS, Typescript, Javascript, Styled-components, Tailwind, Vite, Next JS, Git, Github and Figma.

Front-end Developer and UI Designer, Freelancer:
May/2023 - July/2023.
Description: Independent Front-end Developer UI Designer working on a variety of projects, providing outsourced services and improving studies on personal projects, using various technologies.
Technologies: React JS, Next JS, Node JS, Typescript, Tailwind, Styled-components, Vercel, Netfly, Vite, Git, Github and Figma.

Front-end Developer, at: SoftExpert.
December/2022 - April/2023.
Description: Global company, with a presence in more than 50 countries, focused on business management with internal solutions for +2000 clients worldwide, where I was able to work in the workspace area of the main application, participating in the development of features and maintenance.
Technologies: React JS, Javascript, CSS, JQuery, Jest, Storybook, Git and Gitlab.

Front-end developer, at: Ensinio.
April/2021 - November/2022.
Description: Online company that sells a white-label platform for digital content, such as online courses and products from a wide range of segments, customized for each client. I worked on developing new features for different sectors of the platform, as well as maintenance and updates.

Technologies: React JS, Next JS, Typescript, Javascript, Styled-components, Redux, Figma, Git, Gitbucket eGithub

Programming Instructor at: SuperGeeks.
February 2019 - January 2021.
Description: First School of Programming, Robotics, Technology and Innovation, aimed at children, teenagers and young people in Brazil. I was able to work as an instructor in programming, computer science and development, as well as providing support for the creation of digital content and media.
Technologies: Python, Javascript, C++, HTML, CSS, Scratch, Arduino, Kodular, Corel, Draw, Unity and Unreal.

Designer, Video Editor and Hardware Support at: Alorean
January 2020 - January 2021.
Description: Providing freelance outsourced design services, hardware maintenance, digital media editing and graphic design for companies of different sectors and sizes. Using our own brand called 'Alorean'.
Technologies: Figma, Corel Draw, Hardware, Adobe Premiere and Photoshop.

Apprentice, at: Instituto Educacional Iraci Veiga.
November/2016 - December/2017.
Activities: School of courses and development. At the end of 2016 I started in the trial phase, at the beginning of 2017 I was already an Apprentice working in the creation, development and design sector. Support for the company's digital marketing and IT.
Technologies: HTML, Corel Draw, Adobe Photoshop and Hardware

Education:
